To Whom It May Concern:

As the Interim Superintendent of Schools for the Moreno Valley Unified School District, I am pleased to support the efforts of the Inland SoCal United Way in our local community to offer vital resources and services to our community. Their mission is to foster unity between people and ideas, provide needed resources to our community, and focus on the needs to improve lives. Through our partnership, we can ensure success for all students to graduate high school prepared and successfully enter higher education and/or pursue a viable career path.

The program engages in creating new possibilities in the Inland Empire, feeding hungry children, equipping students for success, preparing youth for college and careers, and connecting those in need with crucial resources. Fundamentally their programs are essential for student's educational success and to show them they are truly cared for.

The Moreno Valley Unified School District understands the needs of their community. One whole part of student success comes from supported families. Reliable resources and opportunities to better serve our families is at the forefront of our mission to provide an equitable education to all students. Inland SoCal United Way provides an opportunity for addressing the short-term emergency needs of low-income families and investing in the futures of at-risk children.

Commitment number 10 in the Moreno Valley Unified School District is to "Enhance Community Through Action". Please help us create Excellence on Purpose so that our entire community will Shine Brighter! Through our collective efforts, we will change the future of our village!

The Moreno Valley Unified School District offers full support for Inland SoCal United Way to improve the lives and futures of children and families in need by investing in education, health, and financial stability. Should you need additional information or have questions, please contact me at rverdi@mvusd.net

Sincerely,

Robert J. Verdi, Ed.D,
Interim Superintendent of Schools
